

## See More with GlideScope Core Software Updates

Verathon® is committed to continuous image improvement and innovation. We are pleased to offer a software update for GlideScope® Core™ to enhance visualization for airway management and bronchoscopy procedures.<sup>1</sup>

### Brightness

More than 30% brighter to aid in airway visualization and inspection.<sup>2</sup>

### Sharpness

20% improvement in sharpness<sup>3</sup> for better clarity of tissue anatomy.

### Color

Up to 15% improvement in color accuracy for better visualization of abnormal or inflamed tissue.<sup>4</sup>

1. With Core 15 FHD software v1.9 or later, or Core 10 FHD with software v1.6 or later
2. When the monitors are plugged in
3. Defined as vertical edge sharpness
4. Except BFlex 2.8 and BFlex 2 Ultraslim 2.8
